

Education Success Made Simple

June 2021

Dear Parents and Guardians,

Thank you for your interest in UP Academy. If you are reading this letter, it tells me you are a parent looking for a better educational experience for your child.

As the founder of UP Academy, I am eager and excited to welcome you to join an exciting new journey in education. We are changing the way we educate our children. The provincial, one size fits all system does not serve many children and therefore is not sustainable. We believe we have developed a second to none system with out-of-the-box thinking, individualized programming, a rigorous curriculum, and a values-based community. Will your family be joining us?

The logistics booklet gives you plenty of information regarding our mission, our values and what sets us apart from others. With the expected opening of our larger, SE Campus we can offer a few more spaces for new students.

We are available to answer any questions you may have. Kindly contact our office at 403 283 3278 or email Lani directly at lanid@engagededucators.com and place "Up Academy Inquiry" in the subject line.

Warmest regards,

Lani
